

CCNA® ROUTING & SWITCHING CERTIFICATION TRAINING

Ready to prepare for a successful career in networking? A CCNA Routing and Switching certification is the way to show your current or future employer that you are up-to-date on the latest networking technologies. Tulsa Tech is a Cisco Networking Academy partner and offers the CCNA Routing and Switching classes to prepare you to take the Interconnecting Cisco Networking Devices exams.

- » Ideally suited for individuals who want to increase their value to employers and those wishing to stay current with advances in networking knowledge and skills
- » Designed to validate the ability to install, configure, operate and troubleshoot medium-size routed and switched networks
- » Exams are administered for Tulsa Tech students only at the Riverside Campus testing facility
- » You may choose to take the Cisco Certified Entry Technician (CCENT) exam (100-105 ICND1) after CSCO-3337
- » Prepare for CCNA Routing & Switching exam
