

## CCNP® ROUTING & SWITCHING CERTIFICATION TRAINING

*Must Have Completed Cisco CCNA® Certification Training*

You have already proven your worth with a Cisco CCNA certification and now you are ready to take your networking skills to the next level! The Cisco Certified Network Professional (CCNP) Routing & Switching certification builds on the CCNA knowledge base with an in-depth understanding and theoretical knowledge of advanced routing and switching for converged voice, video, and data enterprise networks.

- » Tulsa Tech is a Cisco Networking Academy partner and provides you an opportunity to construct knowledge and gain practical experience in designing and supporting complex enterprise networks in a real-world environment
- » Exams are administered for Tulsa Tech students only at the Riverside Campus testing facility
- » CSCO-3352 and CSCO-3353 classes may be taken in any order, while CSCO-3351\* must be taken last
- » Prepare for 300-101 Route, 300-115 Switch and 300-135 exams

Classes may be taken in any order     \*Class must be taken last
