

CNC LATHE OR CNC MILL MACHINIST CERTIFICATE

Whether you are currently a manual machinist or have no experience in the machining world, this is the place to start in computer numeric controlled (CNC) machining. Here's your opportunity to upgrade your skills to include the operation and programming of CNC Lathe or Mill machines.

- » Classes provide occupational training required for employment in the field of computer numerically controlled machining
- » Curriculum is accelerated while embracing the hands-on approach to learning on a variety of controls including: Fanuc, HAAS, Mazak and Okuma
- » You will develop skills and experience in operations, setup and programming
- » OSHA 10 General is included in MACH-3379
- » Optional skills certification through the National Institute for Metalworking Skills, Inc. (NIMS) include the CNC Turning: Operations credential or the CNC Milling: Operations credential
- » For NIMS credentialing info, visit nims-skills.org
