Pre-requisite(s): In this course students will discuss and perform permanent waves. Students will describe the relationship between hair structure, perm chemistry and perm techniques.

Course Description:

Textbooks:

Course Objectives:

A. Discuss Permanent Waves
   1. Define permanent waving.
   2. Contrast the differences and similarities between a permanent wave and a soft curl perm.
   3. Identify the chemistry of products used in permanent waving.
   4. Describe the relationship between hair structure, perm chemistry and perm techniques.
   5. List the steps in client consultation and hair analysis.
   6. Explain safety precautions necessary for permanent waves.
   7. List different types of rods and explain the effect you create in the hair with them.
   8. Discuss the chemical activity that takes place during a permanent wave.

B. Perform Permanent Waves
   1. Demonstrate a client consultation and hair analysis.
   2. Perform proper rod selection and sectioning, parting, and wrapping procedures.
   3. Demonstrate proper permanent wave procedures.
   4. Exhibit proper safety precautions during the perm process.

Teaching Methods: The class will primarily be taught by the lecture and demonstration method and supported by various media materials to address various learning styles. There will be question and answer sessions over material covered in lecture and media presentations. Supervised lab time is provided for students to complete required projects.

1 Oklahoma State Barber Board Objective
2 ODCTE Objective
All unmarked objectives are TTC instructor developed.
PERMANENT WAVING FOR BARBERS

Grading Procedures:  
1. Students are graded on theory and shop practice and performance.  
2. Each course must be passed with seventy (70%) percent or better.  
3. Grading scale: A=90-100%, B=80-89%, C=70-79%, D=60-69%, F=50-59%.

Description of Classroom, Laboratories, and Equipment: 
Tulsa Technology Center campuses are owned and operated by Tulsa Technology Center School District No. 18. All programs provide students the opportunity to work with professionally certified instructors in modern, well-equipped facilities.

Available Certifications/College Credit: 
The student may be eligible to take state, national or industry exam after completion of the program. College credit may be issued from Oklahoma State University-Okmulgee or Tulsa Community College. See program counselor for additional information.

College Credit Eligibility: 
The student must maintain a grade point average of 2.0 or better.
