Radiologic Technology Program
Program Effectiveness Data

Credentialing Examination Pass Rates:

Credentialing examination pass rate is defined as the number of student graduates who pass, on first attempt, the American Registry of Radiologic Technologists (ARRT) certification examination compared with the number of graduates who take the examination within six months of graduation.

2015-2019 Credentialing Examination Pass Rate:

81% of graduates (65 of 80) passed the ARRT certification examination on the first attempt within six months of graduation. (Tulsa Tech Benchmark – 80%)

Job Placement Rates:

Five year average job placement rate is defined as the number of graduates employed in the radiologic sciences compared to the number of graduates actively seeking employment in the radiologic sciences. The JRCERT has defined not actively seeking employment as: 1) graduate fails to communicate with program officials regarding employment status after multiple attempts, 2) graduate is unwilling to seek employment that requires relocation, 3) graduate is unwilling to accept employment due to salary or hours, 4) graduate is on active military duty, and/or 5) graduate is continuing education.

2014-2018 Job Placement Rate:

97% of graduates (66 of 68 actively seeking employment) were employed in the field within twelve months of graduation. (Tulsa Tech Benchmark – 80%)

* 2019 data is not yet available.

Program Completion Rate:

Program completion rate is defined as the number of students who complete the program within 150% of the stated program length.

2019 Program Completion Rate:

22 students began the program – 20 students completed the program – 91% completion rate (Tulsa Tech Benchmark – 75%)
